

LAKE REGION ELECTRIC COOPERATIVE STANDBY GENERATOR SYSTEMS

BENEFITS OF OWNING A GENERATOR SYSTEM

Our standby power systems are designed to provide peace of mind and keep your life uninterrupted. The lights stay on, the sump pump keeps running, and your furnace or AC keeps your family comfortable. Our standby generator system intelligently powers your whole house, automatically powering what you need when you need it most.

Benefits of an LREC generator:

- » Generator automatically starts when the power goes out
- » Sold and installed by LREC*
- » Eligible for a 48-month **EASY-PAY** plan
- » From Briggs & Stratton—The Power Experts!
- » Runs on natural gas or LP (provided by others)
- » Omnimetrix monitoring system **New for 2023**

GENERATOR OPTIONS

12KW POWER PROTECT

Pricing starts at \$8,799.96

Pricing starts at \$11,078.05

26KW POWER PROTECT

Pricing starts at \$12,090.55

Our energy management team will help you choose the appropriate generator size and transfer switch for your home.

GENERATOR PACKAGES

Each generator installation includes the following:

- » Generator Power Protect Series with a 6 year warranty
- » LREC professional installation*
- » Cold weather kit and battery
- » Concrete pad
- » Exterior indicator light
- » First annual maintenance
- » One-year remote monitoring

AUTOMATIC TRANSFER SWITCHES

LREC has two automatic transfer switches available: DirectPower and Symphony II. These transfer switches automatically connect to the standby generator, diverting the power source of the home when experiencing an outage. This allows for seamless connectivity from home utility power to the standby generator, erasing homeowner worry.

**Some installations will require a homeowner's electrical contractor.*
